

IMPOWER has been the pioneer in the State of Florida in the implementation of Behavioral Health Telehealth services) delivering well over 450 telehealth services per week. We have now conducted more than 50,000 telehealth services!

As part of our IMPOWER Strategic Plan entitled, “Virtual Success,” we are moving towards becoming a predominantly virtual company for the treatment of Behavioral Health Outpatient Therapy and Psychiatric Services. Beginning September 1, 2017 and ending in March 2018, IMPOWER will be closing our current physical outpatient offices in Brevard, Longwood and Kissimmee. We will relocate to very small local offices that will be able to accommodate those clients that are deemed by treatment providers as requiring face to face services. Along with this, we are excited to announce a complete redesign of our Outpatient Organizational structure that has been rolled out and will be in place close to the timing of our virtual transition. These positions will better support the needs of our clients as it relates to telehealth support and supervision of our programs in this new environment. This furthers the support we offer to our clients connecting from home, or the location of their choice. Be on the lookout for additional information that will be forthcoming on the redesigning of behavioral health programs to better fit our new virtual business model. We have a lot of new business endeavors that will be launched in the upcoming months. We are embarking on the Commercial side of services, offering telehealth for a number of large insurers, Medicare and private pay.

Due to the shortage of Psychiatrists and treatment providers, we have found a robust answer to meeting the needs in our community.

Our overall goal is to eliminate barriers to the treatment of mental illness, reduce the stigma associated with treatment, and enhance the experience and long term outcomes of all those we serve. With our model change, we are happy to announce that we can provide access to psychiatric care (with appropriate intake information) within 48 hours of request. Please share and go to IMPOWERFL.ORG to make an appointment or a referral.
